DISAPPEARING PUMPKINS

Halloween may be over, but there's still tons of Fall-themed, science fun to be had! Examine how with the right materials, you can make pumpkin candy have a spooky chemical reaction. Enjoy this interesting and adaptable activity with your

WORKSHOP SPOTLIGHT: CLOSE ENCOUNTERS OF A CHEMICAL KIND

NEW! Activities, materials, resources and connections to healthy choices!

Our Pure Substances and Mixtures workshop has been updated for 2017. This revised, hands-on workshop has each student doing their own experiments to observe particle motion and solubility, as well as collaborating with other students to plan experiments.

Your young chemists will use cool chemistry tools to analyze the ingredients in a vitamin C tablet, determine how to get their daily dose of vitamins and experiment to check the nutritional information on their juice box!

WHERE YOU CAN FIND US: LEE VALLEY WORKSHOPS & STAO CONFERENCE

Scientists in School has once again partnered with your local Lee Valley Tools!

Kids and parents will experience hands-on, STEM activities together, such as music and sound, or electricity and magnetism. Click the [link](#) to find upcoming dates happening in your neighbourhood!

Are you attending the Science Teachers' Association of Ontario's 2016 conference on November 10, 11 and 12 in Toronto?

Make sure you come and visit us at booth 713 to learn more about our programs, and new teacher resource packages we are releasing; or just say hi and meet our amazing staff.

[Check out the excellent line-up of workshops and speakers](#), and come connect, explore and create. See you at STAO 2016!

PLAN A SCIENCE DAY!

What's better than getting your classroom excited about science? Getting your whole SCHOOL excited about science, of course!

If you are interested in organizing a day of interactive science learning where all classes participate in Scientists in School workshops at the same time, contact us at eco@scientistsinschool.ca
