DISAPPEARING PUMPKINS

Halloween may be over, but there's still tons of Fall-themed, science fun to be had! Examine how with the right materials, you can make pumpkin candy have a spooky chemical reaction. Enjoy this interesting and adaptable activity with your

Meet Scientist Sherrie!

Our workshop presenters are the best! Highly trained, with strong science backgrounds and a passion for teaching kids, they are one of the reasons that so many students and teachers come back to Scientists in School again and again! This month, get to know Scientist Sherrie better.

A former science and math teacher at the high school/college level, Scientist Sherrie oversees all topics presented in the Niagara area. On top of being a team leader to her staff, Sherrie is also a workshop presenter for Structures: Stable and Strong (Gr. 3).

Scientist Sherrie's favourite part of Scientists in School workshops are the sounds of students exploring and collaborating while discovering different scientific concepts. Sherrie's love for working with kids goes beyond the classroom. A mother to four boys, she is often found at local arenas cheering her kids on, as well as taking them for hikes and playing baseball.

Scientist Sherrie can't wait to get into your classroom and help ignite the passion for science in your students as they learn, grow and discover!

WHERE YOU CAN FIND US:

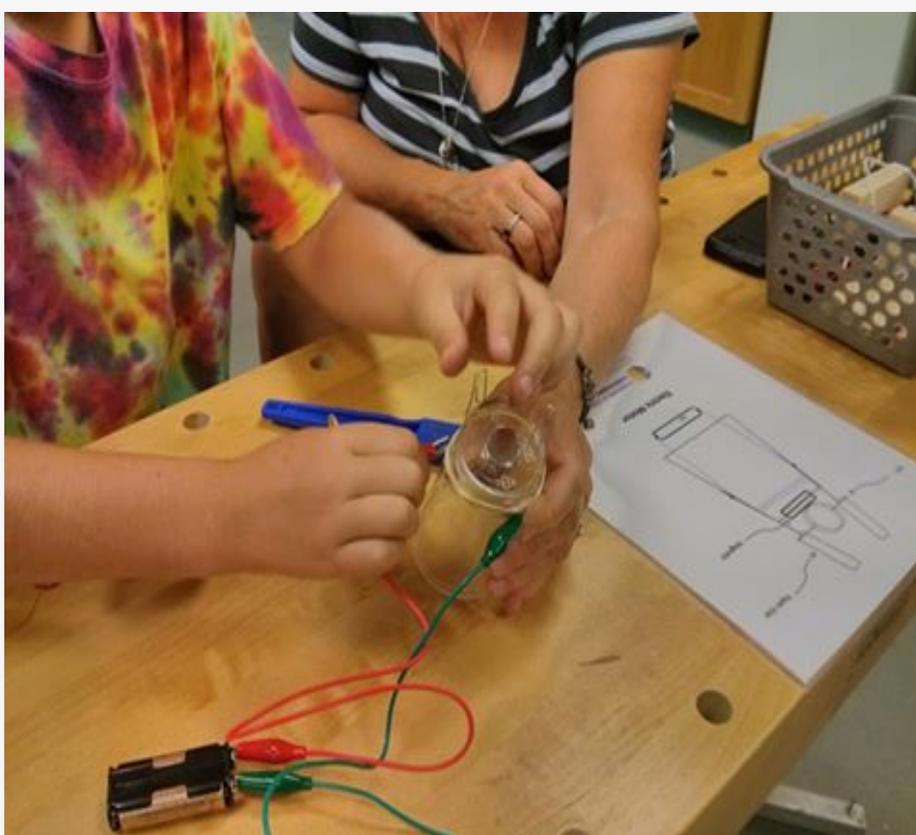

STAO CONFERENCE & LEE VALLEY WORKSHOPS

Are you attending the Science Teachers' Association of Ontario's 2016 conference on November 10, 11 and 12 in Toronto?

Make sure you come and visit us at booth 713 to learn more about our programs, and new teacher resource packages we are releasing; or just say hi and meet our amazing staff.

[Check out the excellent line-up of workshops and speakers](#), and come connect, explore and create. See you at STAO 2016!

Scientists in School has once again partnered with your local Lee Valley Tools!

Kids and parents will experience hands-on, STEM activities together, such as music and sound, or electricity and magnetism. Click the [link](#) to find upcoming dates happening in your neighbourhood!

PLAN A SCIENCE DAY

What's better than getting your classroom excited about science? Getting your whole SCHOOL excited about science, of course!

If you are interested in organizing a day of interactive science learning where all classes participate in Scientists in School workshops at the same time, contact us at sco@scientistsinschool.ca

KIDZ LAB CHALLENGE

Bring Scientists in School into your visual arts lesson!

Our veteran mascot, Mr. Scientist, is retiring and we need a new Kidz Lab Challenge mascot to fill his shoes. Your students design may be featured on our website, social media, and of course, the winner will receive some awesome prizes.

Download the entry package [here](#). We look forward to seeing all the imaginative designs!
