

## Requesting a parent volunteer for a workshop – helpful copy

Dear Parents,

On <date>, Scientists in School (SiS) will be visiting our classroom. We need <number> parent volunteers to help make this SiS workshop successful. Can you help?

The workshop will be held in the <morning/afternoon> and we will need parent volunteers from <time> until <time>.

Scientists in School is a leading Canadian educational charity dedicated to sparking children's interest in and love of science, technology, and the environment through hands-on discovery. SiS workshops enrich our science curriculum and are fast-paced, engaging and fun! As a parent volunteer, you will be helping students conduct experiments and engage in other hands-on activities.

No prior experience or knowledge is necessary and you will be carefully instructed on your duties before the workshop begins.

If you can help, please contact me <contact info and details>.
